COMMENTARY

Basis of preparation and accounting policies

The extract from the audited condensed consolidated financial statements for the year ended 28 February 2021, which was issued on 21 June 2021, (results for the year and/or the reporting period) have been prepared in accordance with framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS), the SAICA Financial Reporting Guides, as issued by the Accounting Practices Committee and the Financial Reporting Pronouncements issued by the Financial Reporting Standards Council. The report contains the information required by International Accounting Standard IAS 34: Interim Financial Reporting and is in compliance with the Listings Requirements of the JSE Limited and the requirements of the South African Companies Act, No. 71 of 2008. The accounting policies as well as the methods of computation used in the preparation of the results for the period ended 28 February 2021 are in terms of IFRS and are consistent with those applied in the audited annual financial statements for the year ended 29 February 2020.

There is no significant difference between the carrying amounts of financial assets and liabilities and their fair values. The fair value measurement for land and buildings are categorised as a level 3, based on the valuation method of income capitalisation using unobservable inputs i.e. market capitalisation rates and income/expenditure ratio. The results are presented in Rand, which is Stefanutti Stocks's functional currency.

The company's directors are responsible for the preparation and fair presentation of the summarised condensed consolidated results. These results have been compiled under the supervision of the acting Chief Financial Officer, Y du Plessis, CA(SA).

Auditors' report

The summarised report is extracted from audited information but is not itself audited by Stefanutti Stocks's external auditor. The unmodified independent auditors' report, with an emphasis of matter paragraph, can be found on page 9 of the consolidated annual financial statements, as well as on Stefanutti Stocks's website.

We draw attention to the consolidated statement of profit or loss and other comprehensive income, statement of financial position as well as note 2 of the financial statements, which indicates that the group incurred a net loss of R290 million for the year ended 28 February 2021 and, as of that date, the group's current liabilities exceeded its current assets by R1 358 million.

As stated in note 2 these events and conditions, along with other matters as noted, including the uncertainties surrounding the COVID-19 pandemic and contingent liabilities, as disclosed in note 26, indicate that a material uncertainty exists that may cast significant doubt on the group's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified in respect of this matter.

COVID-19

Stefanutti Stocks's priority continues to be the health and safety of its employees. The management of the group remains committed to supporting the initiatives that the governments have implemented in the various countries in which the group operates. Importantly, Stefanutti Stocks continues to adhere to the required protocols and maintains a close working relationship with clients and key stakeholders to mitigate the extensive impact of COVID-19 and reduce the long-term effects on its business.

Group profile

Stefanutti Stocks is a construction company operating throughout South Africa, Sub-Saharan Africa and the United Arab Emirates with multi-disciplinary expertise including concrete structures, marine construction, piling and geotechnical services, roads and earthworks, bulk pipelines and surface mining related services, all forms of building works, including affordable housing, and mechanical and electrical installation and construction.

Restructuring Plan update

The group hereby provides shareholders with an update on the Restructuring Plan as reported in the Unaudited Condensed Consolidated Results of Stefanutti Stocks for the six months ended 31 August 2020 issued on 26 November 2020, subsequent disposal of properties announcement issued on 21 October 2020, the disposal of the mining services division announcement issued on 28 April 2021 as well as the Reviewed Condensed Consolidated Results for the 12 months ended 28 February 2021 issued on 27 May 2021.

As previously reported, the Restructuring Plan has been approved by both the company's board of directors and the Lenders and envisages, inter alia:

- › the sale of non-core assets;
- › the sale of underutilised plant and equipment;
- › the sale of certain operations;
- › internal restructuring initiatives required to restore optimal operational and financial performance;
- › the securing of additional short-term funding of R430 million, of which R270 million related to

the negative effects of the national lockdown in March/April 2020;

- › a favourable outcome from the processes relating to the contractual claims and compensation events on the Kusile power project;
- › the restructuring of the short-term funding received to date from the Lenders into a term loan; and
- › evaluation of an optimal business model going forward and associated capital structure analysis including the potential of raising new equity.

In accordance with the Restructuring Plan, the Lenders had provided the requisite funding and converted the short-term funding agreement into a term loan on 1 July 2020, which loan terminates on 28 February 2022. The loan bears interest at prime plus 5,4%, including arranging and facility fees, and is secured by special and general notarial bonds over movable assets, continuous covering mortgage bonds over immovable assets and various cessions. Shareholders are further advised that the group, on 25 May 2021, reached an agreement with the Lenders to extend the current capital repayment profile of the loan. The capital portion of the loan repayments are envisaged to commence in July 2021 with a residual loan balance at 28 February 2022 of approximately R420 million. The resolution of contractual claims and compensation events on the Kusile power project is taking longer than anticipated due to the complex nature thereof.

The Lenders have agreed to provide continued guarantee support for current and future projects being undertaken by the group. Management has made considerable progress in reconfiguring the group's organisational structure to improve operational performance and decrease overhead costs, including the reduction of the group's overall headcount. This is an ongoing process which continues as the aspects of the Restructuring Plan are being implemented in this uncertain environment.

The purpose of the Restructuring Plan is to put in place an optimal capital structure and access to liquidity to position the group for long-term growth.

The Restructuring Plan is anticipated to be implemented over the financial year ending February 2022 and, to the extent required, shareholder approval will be sought for certain aspects of the Restructuring Plan. Stefanutti Stocks will continue to update shareholders on the progress of the various aspects of the Restructuring Plan.

The funding provided by the Lenders has assisted in relieving the group's liquidity pressures even though current liabilities exceed current assets at 28 February 2021.

In addition thereto, uncertainties surrounding the COVID-19 pandemic and contingent liabilities as noted in note 26 of the group's Consolidated Annual Financial Statements for the year ended 28 February 2021, continue to indicate that a material uncertainty exists that may cast doubt on the group's ability to continue as a going concern in the short term. However, having converted the short-term funding agreement with the Lenders to a term loan and on the basis of successfully implementing the Restructuring Plan, the directors consider it appropriate that the group's results for the reporting period be prepared on the going-concern basis.

Overview of results

As previously highlighted to shareholders in various announcements and updates since late 2018, the group continues to pursue a number of contractual claims and compensation events on the Kusile power project. Due to the complexity of the claims, the processes remain ongoing. No further details of the claims have been disclosed on the basis that it may prejudice the group's position in defending the claims brought against it and in pursuing those claims brought against Eskom by the group.

As a consequence of the implementation of the Restructuring Plan, a number of non-core assets, underutilised plant and equipment and identified operations earmarked for sale have been reclassified in terms of IFRS 5: Non-current Assets Held for Sale and Discontinued Operations.

Non-current assets held for sale

The following items of property, plant and equipment were reclassified as held for sale as the group is actively marketing these assets and is expected to dispose of these within a year:

	Business unit	Non-current assets held for sale R'000	Liabilities directly associated with non-current assets held for sale R'000
PROPERTY, PLANT AND EQUIPMENT			
Land and buildings	Construction & Mining and M&E	47 435	8 190
Transport and motor vehicles	Construction & Mining	138	–
Plant and equipment	Construction & Mining and Building	140 335	23 630
		187 908	31 820

The carrying value of the investment relating to the equity-accounted United Arab Emirates Joint Venture of R268 million, has also been re-classified to non-current assets held for sale.

Negotiations with respect to the sale of this entity remain ongoing. Once agreement has been reached shareholders will be advised as to the terms which could impact on the fair value of the investment.

Discontinued operations

In line with the Restructuring Plan, the group has initiated a disposal programme to sell certain operations which have accordingly been classified as discontinued operations effective 1 July 2020 and 28 February 2021. These disposals, including certain foreign operations, are expected to be concluded within the next 12 months and include the disposal of the Mining Services division as contemplated in the Circular sent to Shareholders on 28 April 2021. The financial performance, reportable assets and reportable liabilities are presented within the Construction & Mining and Building business units. Continuing operations

The continued adverse market conditions, as well as the substantial impact of COVID-19, has reduced contract revenue from continuing operations to R5,0 billion (restated Feb 2020: R7,2 billion) with an operating loss of R111 million (restated Feb 2020: R1 022 million). On 30 October 2020 the group ceased marketing the Mechanical & Electrical business unit, which is now classified as part of continuing operations.

The United Arab Emirates operation, included in the share of profits of equity-accounted investees, reported a profit of R6 million for the period to June 2020 (Feb 2020 profit of R48 million). From July 2020, the operation has been classified as held for sale and carried at fair value.

The group has not provided for a deferred tax asset on the losses pertaining to the South African trading entity. Furthermore, the tax charge is impacted by the profitability of the cross-border operations at their varying tax rates.

The after tax loss for the period for continuing operations is R311 million (restated Feb 2020: R1 107 million) and for discontinued operations a profit after tax of R21 million (restated Feb 2020: R35 million).

Earnings and headline earnings per share for total operations are reported as a loss of 171,62 cents (Feb 2020: 640,35 cents) and a loss of 155,13 cents (Feb 2020: 622,48 cents) respectively.

The group's order book for continuing operations is currently R5,5 billion of which R2,1 billion arises from work beyond South Africa's borders.

Finance costs increased to R134 million (restated Feb 2020: R115 million) as a result of the extended funding made available from the Lenders. Total interest-bearing liabilities have remained relatively consistent at R1 553 million (Feb 2020: R1 510 million).

The impact of COVID-19 and current dispute resolution processes have contributed negatively on cash consumed by operations of R209 million (Feb 2020: R674 million). The group's total cash position has increased to R847 million (Feb 2020: R741 million). Should the discontinued operations be excluded, the cash position is R756 million (Feb 2020: R741 million).

The effect of the weakening Rand on the translation of certain foreign operations resulted in R62 million loss (Feb 2020: R52 million profit) being recognised in other comprehensive income.

Review of operations

CONSTRUCTION & MINING

Construction & Mining's contract revenue from continuing operations decreased to R3,7 billion (restated Feb 2020: R4,7 billion) with an operating profit of R71 million (restated Feb 2020: operating loss of R383 million).

A decision has been taken to cease the Contract Mining operation. At February 2021, only one insignificant contract remains active, which will be completed by October 2021. In terms of the requirements of IFRS 5: Non-current Assets Held for Sale and Discontinued Operations, the results of the Contract Mining operations are disclosed as part of continuing operations.

The operating loss for Contract Mining for the year amounted to R55 million (Feb 2020: R161 million).

Opportunities exist for this business unit in transport infrastructure, water and wastewater treatment plants, mine infrastructure and in the alternate energy sector.

The government's proposed National Development Plan (NDP) will offer potential opportunities to this business unit.

As previously reported, with respect to two contract mining project terminations, the arbitration matters remain ongoing. The group is confident that the terminations were lawful and therefore no provision has been made for these. Both arbitrations are expected to be completed by February 2022.

Construction & Mining's total order book at February 2021 was R3,6 billion (Feb 2020: R4,6 billion).

BUILDING

Due to the National Lockdown and the safety regulations of COVID-19, the Building business unit was unable to work for three months during the reporting period, resulting in contract revenue from continuing operations reducing to R1,1 billion (restated Feb 2020: R1,7 billion). The operating loss decreased to R31 million (restated operating loss Feb 2020: R514 million). The profit of the equity-accounted United Arab Emirates operation is excluded from this result.

This business unit should also potentially benefit from the NDP, together with commercial, retail, industrial, warehouse and factory opportunities in the private sector, in Gauteng, KwaZulu-Natal and Western Cape.

The Mozambique division's order book is currently under pressure, impacted by the ongoing unrest in the northern province gas fields expansion projects. The division is, however, pursuing other opportunities in the office, residential, factory and surface mine infrastructure in the private sector.

Building's total order book at February 2021 was R2,0 billion (Feb 2020: R2,3 billion) excluding the United Arab Emirates order book of R485 million (Feb 2020: R658 million).

MECHANICAL & ELECTRICAL

Mechanical & Electrical's contract revenue decreased to R270 million (Feb 2020: R897 million) with an operating loss of R64 million (Feb 2020: R25 million). This business unit has been severely impacted by the effects of the COVID-19 pandemic has had on global commodity prices resulting in major plant maintenance and upgrade projects being put on hold. However, opportunities in the traditional petrochemical sector for the Oil & Gas division are showing signs of improvement.

The arbitration matter relating to the cancellation of a petrochemical contract had to be postponed due to a fundamental change in the client's defence. A date for the arbitration is yet to be set. At this stage the financial impact thereof cannot be quantified.

During the reporting period, Stefanutti Stocks terminated a mechanical project. The client is disputing the termination, which has now been referred to arbitration. The arbitration process is expected to be completed by February 2022. The group is confident that the termination was lawful and therefore no provision has been made against this.

Mechanical & Electrical's total order book at Feb 2021 was R136 million (Feb 2020: R328 million).

Safety

Management and staff remain committed to enhanced health and safety policies and procedures, and together strive to constantly improve the group's safety performance. The group's Lost Time Injury Frequency Rate (LTIFR) at February 2021 was 0,03 (Feb 2020: 0,02) and the Recordable Case Rate (RCR) was 0,35 (Feb 2020: 0,29).

Broad-Based Black Economic Empowerment (B-BBEE)

The group is a level 1 B-BBEE contributor measured in terms of the Construction Sector scorecard with a Black Economic Interest score of 81,3%.

Industry related matters

With respect to the civil claim received from the City of Cape Town (Green Point Stadium), the arbitration date has been set for September 2021. The group remains confident it can defend this claim.

The group continues to be negatively affected through disruptive and unlawful activities by certain communities and informal business forums in certain areas of South Africa.

Dividend declaration

Notice is hereby given that no dividend will be declared (Feb 2020: Nil).

Changes and proposed changes to the board of directors

During this implementation period, Yolanda du Plessis will be appointed as acting Chief Financial Officer and executive director with effect from 1 June 2021. Yolanda has been with the group since 2008 and has worked closely with both Dermot and Antonio over the years. Yolanda's appointment has the support of the board.

Appreciation

We would like to express our appreciation to the board, the management team and all of our employees for their continuous commitment and dedication in this demanding environment. We also express our gratitude to our Lenders, service providers, customers, suppliers and shareholders for their ongoing support.

Accordingly, the shareholders are requested to endorse the company's remuneration policy and implementation report, respectively by way of separate non-binding advisory votes in the same manner as an ordinary resolution.

In the event that either the remuneration policy or the implementation report, or both, are voted against by shareholders exercising 25% or more of the voting rights exercised at the AGM, the company will engage with the dissenting shareholders to establish their reasons for voting against the resolution(s) and to appropriately address legitimate and reasonable objections and concerns raised and undertake to review, clarify or amend the remuneration policy and/or process as necessary.

REASON FOR AND EFFECT OF SPECIAL RESOLUTION 2

Notwithstanding the title of section 45 of the Companies Act, being "Loans or other financial assistance to directors", on a proper interpretation, the body of the section may also apply to financial assistance provided by a company to related or interrelated companies and other entities, including, inter alia, its subsidiaries, associates, joint ventures, partnerships, collaboration arrangements, etc. for any purpose.

Furthermore, section 44 of the Companies Act may also apply to the financial assistance so provided by a company to related or interrelated companies or other entities, in the event that the financial assistance is provided for the purpose of, or in connection with, the subscription of any option, or any securities, issued or to be issued by the company or a related or interrelated company, or for the purchase of any securities of the company or a related or interrelated company.

Both sections 44 and 45 of the Companies Act provide, inter alia, that the particular financial assistance must be provided only pursuant to a special resolution of the shareholders, adopted within the previous 2 (two) years, which approved such assistance either for the specific recipient, or generally for a category of potential recipients, and the specific recipient falls within that category and the board of directors must be satisfied that:

- › immediately after providing the financial assistance, the company would satisfy the solvency and liquidity test; and
- › the terms under which the financial assistance is proposed to be given are fair and reasonable to the company.

The company would like the ability to provide financial assistance, if necessary, also in other circumstances, in accordance with section 45 of the Companies Act. Furthermore, it may be necessary or desirable for the company to provide financial assistance to related or interrelated companies and entities to acquire or subscribe for options or securities or purchase securities of the company or another company related or interrelated to it. Under the Companies Act, the company will, however, require the special resolution referred to above to be adopted. In the circumstances and in order to, inter alia, ensure that the company's subsidiaries and other related and interrelated companies and entities have access to financing and/or financial backing from the company (as opposed to banks), it is necessary to obtain the approval of shareholders, as set out in special resolution 2.

Special resolution 3: General authority to repurchase company shares

"RESOLVED THAT the company and/or its subsidiaries be and is hereby authorised, by way of general authority, to acquire ordinary shares issued by the company, from any person and upon such terms and conditions as the directors of the Company or any subsidiary may determine but subject to the applicable requirements of the Companies Act, the Memorandum of Incorporation of the company and the JSE Listings Requirements."

It is recorded that the company or any subsidiary may only make a general repurchase of shares in the company subject to the following:

- (a) any such acquisition of ordinary shares shall be implemented on the open market of the JSE through the order book operated by the JSE trading system and done without any prior understanding or arrangement between the company and the counter party (reported trades are prohibited);
- (b) this general authority shall only be valid until the company's next annual general meeting, provided that it shall not extend beyond 15 (fifteen) months from the date of passing this special resolution;
- (c) an announcement will be published on SENS as soon as the company has acquired ordinary shares constituting, on a cumulative basis, 3% (three percent) of the number of ordinary shares in issue prior to the acquisition, and for each subsequent acquisition constituting on a cumulative basis 3% (three percent) of the number of ordinary shares in issue, pursuant to which the aforesaid 3% (three percent) threshold is reached, containing full details of such repurchases;
- (d) acquisitions in aggregate in any one financial year may not exceed 20% (twenty percent) of the company's ordinary issued share capital nor may acquisitions in aggregate, from the date of passing this special resolution, exceed 20% (twenty percent) of the company's ordinary issued share capital at the date of passing this special resolution;
- (e) in determining the price at which ordinary shares issued by the company are acquired by it in terms of this general authority, the maximum premium at which such ordinary shares may be acquired will be 10% (ten percent) of the volume weighted average market value at which such ordinary shares are traded on the JSE, as determined over the 5 (five) trading days immediately preceding the date of repurchase of such ordinary shares by the company;
- (f) at any point in time, the company will appoint only one agent to effect any repurchase(s) on the company's behalf;
- (g) the company or its subsidiary may not repurchase securities during a prohibited period unless it has in place a repurchase programme as contemplated in terms of 5.72(g) of the JSE Listings

Requirements where the dates and quantities of securities to be traded during the relevant period are fixed (not subject to any variation) and full details of the repurchase programme has been submitted to the JSE in writing prior to the commencement of the prohibited period. The company will instruct an independent third party, which makes its investment decisions in relation to the company's ordinary shares independently of, and uninfluenced by, the company, prior to the commencement of the prohibited period to execute any repurchase programme submitted to the JSE;

- (h) authorisation for the repurchase of ordinary shares under this authority is given by the Memorandum of Incorporation; and
- (i) a resolution by the board of directors that it has authorised the repurchase, that the company and its subsidiaries have passed the solvency and liquidity test as defined in the Companies Act and that, since the test was performed, there have been no material changes to the financial position of the group.

Percentage of voting rights required to pass this resolution: 75%.

REASON FOR AND EFFECT OF SPECIAL RESOLUTION 3

The reason for special resolution 3 is to grant the company a general authority in terms of the Companies Act, the JSE Listings Requirements and the company's Memorandum of Incorporation for the acquisition by the company, or any of its subsidiaries, of shares issued by the company, or its holding company, which authority shall be valid until the earlier of the next annual general meeting of the company or the variation or revocation of such general authority by special resolution by any subsequent general meeting of the company, provided that the general authority shall not extend beyond 15 (fifteen) months from the date of this AGM. The passing of this special resolution will have the effect of authorising the company or any of its subsidiaries to acquire shares issued by the company or its holding company.

The board believes it to be in the interest of the company that shareholders grant a general authority to provide the board with optimum flexibility to repurchase shares as and when an opportunity that is in the best interest of the company arises.

DIRECTORS' RESPONSIBILITY STATEMENT (PARAGRAPH 11.26(B)(IV) OF THE LISTINGS REQUIREMENTS)

The directors whose names appear under the board of directors in Appendix 3 on page 19 of this integrated annual report, collectively and individually accept full responsibility for the accuracy of the information pertaining to this special resolution and certify that, to the

best of their knowledge and belief, there are no facts that have been omitted which would make any statement false or misleading and that all reasonable enquiries to ascertain such facts have been made and that the special resolution contains all information required by the JSE Listings Requirements.

MATERIAL CHANGES (PARAGRAPH 11.26(B)(III) OF THE LISTINGS REQUIREMENTS)

Other than the facts and developments reported on in the integrated annual report, there have been no material changes in the affairs or financial position of the company and its subsidiaries since the date of signature of the audit report and up to the date of this Notice.

STATEMENT BY THE BOARD OF DIRECTORS OF THE COMPANY

Pursuant to, and in terms of, the JSE Listings Requirements, the board of directors of the company hereby state that:

- › the intention of the directors of the company is to utilise the general authority to repurchase shares in the capital of the company if, at some future date, the cash resources of the company are in excess of its requirements or there are other good reasons for doing so. In this regard, the directors will take account of, *inter alia*, an appropriate capitalisation structure for the company, the long-term cash needs of the company, and the interests of the company; and
- › in determining the method by which the company intends to repurchase its ordinary shares, the maximum number of ordinary shares to be repurchased and the date on which such repurchase will take place, the directors of the company will ensure that:
 - › the company and its subsidiaries will, after the repurchase, be able to pay their debts as they become due in the ordinary course of business for the next 12 (twelve) months after the date of such repurchase;
 - › the consolidated assets of the company and its subsidiaries fairly valued and recognised and measured in accordance with the accounting policies used in the latest audited financial statements will, after the repurchase, be in excess of the consolidated liabilities of the company and its subsidiaries for the next 12 (twelve) months after the date of such repurchase;
 - › the issued share capital and reserves of the company and its subsidiaries will, after the repurchase, be adequate for the ordinary business purposes of the company and its subsidiaries for the next 12 (twelve) months after the date of such repurchase; and
 - › the working capital available to the company and its subsidiaries will, after the repurchase, be sufficient for the ordinary business requirements of the company and its subsidiaries for the next 12 (twelve) months after the date of such repurchase.

ANY MATTERS RAISED BY SHAREHOLDERS, WITH OR WITHOUT ADVANCE NOTICE TO THE COMPANY

To deal, at the AGM, with any matters raised by shareholders, with or without advance notice to the company.

SUMMARY OF APPLICABLE RIGHTS ESTABLISHED IN SECTION 58 OF THE COMPANIES ACT

For purposes of this summary, the term "shareholder" shall have the meaning ascribed thereto in section 57(1) of the Companies Act.

1. At any time, a shareholder of a company is entitled to appoint any individual, including an individual who is not a shareholder of that company, as a proxy to participate in, speak and vote at a shareholders' meeting on behalf of the shareholder.
2. A proxy appointment must be in writing, dated and signed by the relevant shareholder.
3. Except to the extent that the Memorandum of Incorporation of a company provides otherwise:
 - 3.1 a shareholder of the relevant company may appoint two or more persons concurrently as proxies, and may appoint more than one proxy to exercise voting rights attached to different securities held by such shareholder; and
 - 3.2 a copy of the instrument appointing a proxy must be delivered to the relevant company, or to any other person on behalf of the relevant company, before the proxy exercises any rights of the shareholder at a shareholders' meeting.
4. Irrespective of the form of instrument used to appoint a proxy:
 - 4.1 the appointment of the proxy is suspended at any time and to the extent that the shareholder who appointed that proxy chooses to act directly and in person in the exercise of any rights as a shareholder of the relevant company; and
 - 4.2 should the instrument used to appoint a proxy be revocable, a shareholder may revoke the proxy appointment by cancelling it in writing, or making a later inconsistent appointment of a proxy, and delivering a copy of the revocation instrument to the proxy and the relevant company.
5. The revocation of a proxy appointment constitutes a complete and final cancellation of the proxy's authority to act on behalf of the relevant shareholder as of the later of the date:
 - 5.1 stated in the revocation instrument, if any; or
 - 5.2 upon which the revocation instrument is delivered to the proxy and the relevant company as required in section 58(4)(c)(ii) of the Companies Act.
6. Should the instrument appointing a proxy or proxies have been delivered to the relevant company, as long as that appointment remains in effect, any notice that is required by the Companies Act or the relevant company's Memorandum of Incorporation to be delivered by such company to the shareholder must be delivered by such company to:
 - 6.1 the shareholder; or
 - 6.2 the proxy or proxies if the shareholder has in writing directed the relevant company to do so and has paid any reasonable fee charged by the company for doing so.
7. A proxy is entitled to exercise, or abstain from exercising, any voting right of the relevant shareholder without direction, except to the extent that the Memorandum of Incorporation of the relevant company or the instrument appointing the proxy provides otherwise.
8. If a company issues an invitation to shareholders to appoint one or more persons named by such company as a proxy, or supplies a form of instrument for appointing a proxy:
 - 8.1 such invitation must be sent to every shareholder who is entitled to receive notice of the meeting at which the proxy is intended to be exercised;
 - 8.2 the company must not require that the proxy appointment be made irrevocable; and
 - 8.3 the proxy appointment remains valid only until the end of the relevant meeting at which it was intended to be used, unless revoked as contemplated in section 58(5) of the Companies Act.

Voting and proxies

A shareholder of the company entitled to attend and vote at the AGM is entitled to appoint one or more proxies (who need not be a shareholder of the company) to attend, vote and speak in his/her stead. The appointment of a proxy will not preclude the shareholder who appointed the proxy from attending the AGM and participating in and voting at the AGM to the exclusion of any such proxy.

Voting at the AGM will be taken by way of a poll and not on a show of hands.

On a poll, every shareholder of the company present in person or represented by proxy shall have one vote for every share held in the company by such shareholder.

Dematerialised shareholders who have elected own-name registration in the sub-register through a Central Securities Depository Participant (CSDP) and who are unable to attend but wish to vote at the AGM, should complete and return the attached form of proxy and lodge it with the transfer secretaries of the company to be received, for administrative reasons only, by no later than 12:00 on Wednesday, 4 August 2021.

Shareholders who have dematerialised their shares through a CSDP or broker rather than through own-name registration and who wish to attend the AGM must instruct their CSDP or broker to issue them with the necessary authority to attend.

If such shareholders are unable to attend, but wish to vote at the AGM, they should timeously provide their CSDP or broker with their voting instructions in terms of the custody agreement entered into between that shareholder and his/her CSDP or broker.

Forms of proxy may also be obtained on request from the company's registered office. The completed forms of proxy must be deposited at, posted or emailed to the transfer secretaries at the address below, to be received, for administrative reasons only, at least 48 hours prior to the meeting. Any shareholder who completes and lodges a form of proxy will nevertheless be entitled to attend and vote in person at the AGM.

Any member who completes and lodges a form of proxy will nevertheless be entitled to attend and vote at the AGM should the member subsequently decide to do so.

As indicated above, the AGM will be held entirely through electronic communication however in order to facilitate the effective and efficient conduct of the AGM, all shareholders are requested to submit their votes by proxy before the AGM at their earliest convenience. Shareholders intending to participate and/or vote at the AGM are required to complete the Registration Form annexed hereto as Annexure A. When completing the Registration Form, participants will be required to provide proof of identification and accordingly the registration validation process will include the requisite verification required by section 63(1) of the Companies Act, 71 of 2008. Further details on how to participate in the AGM by electronic communication are provided on page 29 of this Notice.

Shareholders are advised that the email addresses and/or contact numbers provided by shareholders in their completed Registration Forms are the only addresses and/or contact numbers that will be recognised for purposes of electronic participation (including voting, where applicable) at the AGM.

The practical applications of the aforementioned rights are discussed in the notes to the proxy form attached hereto.

APPENDIX 4: REMUNERATION REPORT

Introduction

This remuneration report sets out the information applicable to the group's remuneration strategy and remuneration policy for the executive directors, members of the executive committee (EXCO) and non-executive directors. However, where relevant, it also deals with general remuneration matters. The Remuneration Committee (REMCO/the committee) assists the board in determining remuneration policies for the group and has set the remuneration policy for financial year-end 2021 (FYE 2021).

At the 2020 Annual General Meeting (AGM), no matters were raised by shareholders in terms of the remuneration policy and the remuneration implementation report.

This report consists of four sections:

- › **Section A:** a background statement to provide context to the remuneration policy;
- › **Section B:** an overview of the main provisions of the remuneration policy;
- › **Section C:** the implementation of the remuneration policy; and
- › **Section D:** other.

Section A: Background statement

The structure of this report has been compiled to align with the recommended principles and practices of King IV. The overall principle of the Stefanutti Stocks remuneration policy is:

- › To drive the behaviour of the group's employees so that it is aligned to the overall group strategy in the short, medium and long term, within the group's risk framework;
- › To align the strategic interests of the company and its senior executives, with those of its shareholders; and
- › To reflect remuneration that is fair, responsible and transparent.

The purpose of the policy is to continually attract, retain, motivate and reward employees at all levels.

Stefanutti Stocks's 2020 AGM was held on 9 October 2020, and ordinary resolutions

10 and 11 to approve the company's remuneration policy, and remuneration implementation report were tabled then. Refer to the table: Voting Results – Annual General Meeting – October 2020.

The board has approved the information provided by the committee in this report and accepted its recommendations.

1. REMCO

The committee is responsible for the development and oversight of the group's remuneration philosophy and policy. The composition, mandate, role and responsibilities of the committee are set out in written terms of reference, which have been approved by the board. The committee believes the remuneration policy has achieved the stated objectives of optimising strategic performance within both the macro and microenvironments facing the company and its management.

A. COMPOSITION

At year-end the committee consisted of:

- › **HJ Craig (Chairman) –**
Independent non-executive director
- › **ZJ Matlala –**
Independent non-executive director
- › **DG Quinn –**
Independent non-executive director
- › **B Harie –**
Independent non-executive director

All of the committee's members are independent non-executive directors. In addition, the Chief Executive Officer (CEO), Chief Financial Officer (CFO) and the Human Resources Executive attend meetings by invitation.

The Company Secretary attends all meetings as the secretary of the committee.

The committee has access to independent advisors to ensure that it receives expert advice on remuneration matters, both in general and on industry-specific matters. The CEO, CFO and the Human Resources Executive also make recommendations to the committee. However, they are excluded from deliberations in respect of their own remuneration.

B. ROLE AND RESPONSIBILITIES

The written terms of reference of the committee are reviewed annually, with any proposed changes submitted to the board for approval. During the year under review, all remuneration policies were reviewed by the committee to ensure that the policies remained appropriate for the business and aligned with the principles of both King IV and the Companies Act. There were no changes to the terms of reference for FYE 2021.

The REMCO's role and responsibilities include:

- › Ensuring that the chairman of the committee reports to the board on the committee's recommendations and decisions;

- › Recommending to the board the annual Total Fixed Package (TFP), short- and long-term incentives, and other benefits to be paid to the executive directors;
- › Reviewing and approving the annual TFP, including short- and long-term incentives paid to the EXCO members;
- › Reviewing and approving short- and long-term incentive pay structures for other qualifying staff;
- › Reviewing and approving the overall annual TFP increases within the various levels of company and operational directors and monthly paid employees;
- › Reviewing the remuneration of the executive directors and executive management to ensure that this is both fair and reasonable relative to the overall employee remuneration in the group;

Section B: Remuneration policy overview

1. Strategy and philosophy

The company's philosophy is to employ dynamic and competent individuals who subscribe to the group's culture and values. Compensation packages are designed to reward superior performance with superior rewards, whilst poor performance earns no additional rewards.

Stefanutti Stocks strives to provide a safe working environment, and one which encourages the development and personal growth of employees within the framework of the company's objectives.

The key components of the remuneration policy for the executive directors and members of EXCO are as follows:

- › Paying a market competitive Total Fixed Pay (TFP) which includes a base salary, medical insurance, retirement fund contributions and certain other market-related benefits;
- › Paying a Total Remuneration (TR) which is targeted to be within the upper quartile of relevant industry benchmarks. However, in light of prevailing market conditions, the company is currently paying at the median of this benchmark;
- › Paying an appropriate mix between TFP and short- and long-term incentives;
- › Paying an annual cash STI designed to achieve strategic performance goals in the short term;
- › STIs and LTIs incorporate threshold, target and stretch targets, under financial performance criteria, and also reward individuals for their personal contributions under key performance areas (KPA's);
- › Making appropriate long-term incentive awards to executives and all other directors in terms of the FSP, which was approved at a general meeting in August 2009;
- › External advisors are utilised to assist in benchmarking the respective processes;
- › All elements are included in the Remuneration Policy including pre-vesting forfeiture (malus) and post vesting forfeiture (claw-back) of remuneration;
- › The long-term share incentive participation is designed to align the executive directors' performance with shareholder expectations and ensure sustainable future company performance; and
- › The group adopts a prudent risk and reward philosophy, applied within the scope of the group's risk profile.

2. Components of remuneration of executive directors and EXCO

A. GUARANTEED REMUNERATION

When structuring guaranteed packages, the group applies a TFP approach.

Base salary reflects the market value of the individual's skills, experience and performance, and is paid monthly in cash.

Benefits such as pension, medical aid and car allowance are included in the TFP. It is obligatory that all permanent salaried employees of Stefanutti Stocks belong to the Stefanutti Stocks Pension Fund. Membership of a funeral policy plan, which is independent of the pension scheme, is also mandatory for all South African group employees.

The Stefanutti Stocks Pension Fund is a defined contribution fund and provides retirement funding plans and health risk cover benefits for its members.

It is also compulsory for all new salaried employees to join the group's prescribed medical aid scheme, unless the employee can prove that he/she is a dependant on another medical aid.

Hourly-paid employees' remuneration, bonuses and other benefits are determined at industry bargaining council level. The company offers these employees membership to the Stefanutti Stocks Provident Fund, which provides retirement funding and health risk cover benefits. Membership of an approved funeral policy plan is also compulsory for limited duration contract (LDC) employees.

B. VARIABLE REMUNERATION

Executive Directors Incentive Scheme (EDIS)

Executive directors' variable remuneration falls under the EDIS.

i. Short-term Incentive Plan (STI)

The STI is designed to align the short-term interests of the executives with group strategy, using both financial performance measures and personal objectives.

The intention is to motivate executives to drive performance and strive to exceed short-term goals.

Minimum threshold targets are required to be met before respective bonus awards are earned.

All targets are reviewed and set at the beginning of each financial year, with awards due under the scheme being reviewed and approved at financial year-end, by the committee and the board.

The financial and personal performance awards earned under the STI plan are cash-based annual awards.

The two financial performance measures are:

1. Operating profit (OP); and
2. Return on equity (ROE)

The weighting applicable to the personal performance measures is as follows:

CEO	Operations	20%
	Sustainability and compliance	15%
	Successful implementation of the Restructuring Plan	65%
CFO	Governance	35%
	Successful implementation of the Restructuring Plan	65%

Financial performance measures

Personal performance measures are significantly weighted to the successful implementation of the Restructuring Plan, mainly so that executive directors provide sufficient focus on and are rewarded for the successful implementation of the Restructuring Plan.

Financial performance measures account for 50% (FYE 2020: 70%) of possible STI payable to executive directors.

The company uses both personal performance measures as well as financial performance measures when determining overall remuneration.

- › Operating profit margin (OP): An annual expected operating profit margin is established at the commencement of each financial year, with maximum and minimum thresholds applied. The expected OP is internally reviewed and set on an annual basis, and is based on relevant industry and peer comparatives.
- › This OP is based upon normalised operating profit excluding all extraordinary and non-trading items, and was set at 3,0% for FYE 2021 (FYE 2020: 3,0%).
- › On achievement of the targeted OP of 3,0%, an award of 100% (multiplied by 50%) of the TFP is made.
- › If the OP achieved is below a minimum threshold of 1,0%, no award of the STI is made.
- › If the OP achieved is at or above a maximum stretch target of 5,0%, an award of a maximum of 200% (multiplied by 50%) of the TFP is made.
- › A linear sliding scale apportionment is applied between minimum, threshold and stretch targets.
- › ROE: An annual targeted ROE is also established at the commencement of each financial year, targeted to meet the company's weighted average cost of capital (WACC), also with maximum and minimum thresholds applied to this.
- › On achievement of the ROE meeting WACC, the full amount calculated under the OP metric above remains unchanged.
- › If this ROE/WACC metric falls below the minimum threshold of WACC minus 6%, a diluting factor of 50% is applied to the amount calculated under the OP metric.
- › If this ROE/WACC metric is at or above the stretch target of WACC plus 6%, an escalating factor of 150% is applied to the amount calculated under the OP metric.
- › A linear sliding scale apportionment is applied between minimum, threshold and stretch targets.
- › Notwithstanding the results generated out of the above performance measures, the maximum STI payable to executive directors is limited to 250% of TFP (FYE 2020: 250% of TFP).

Personal performance measures

Personal performance measures account for 50% (FYE 2020: 30%) of possible STIs payable to executive directors.

At the commencement of each financial year, personal objectives are set out under key performance areas (KPA's) by the board, for executive directors.

Should the operating profit margin fall below the minimum threshold, currently 1%, no amounts are payable in terms of STI personal performance awards.

ii. Long-term Incentive Plan (LTI)

The LTI plan is designed to align the interests of the executives with those of the shareholders using financial performance measures.

The overall intention is to:

- › generate a long-term sustainable financial performance for the group;
- › promote long-term commitment of the executives to the business; and
- › provide a wealth-creation mechanism for the executives and value creation for shareholders.

The LTI has been formulated using four metrics, the applicable targets of which are set by the board at the commencement of each financial year:

Metrics

1. HEPS growth (HEPS%)
2. Total shareholder return (TSR)
3. Return on capital invested (ROCI)
4. Free cash flow (FCF)

The maximum allocation for achievement of each stretch target above is 200% of TFP, multiplied by the relevant weighting factor, whilst measurables falling below threshold result in no award being generated for that measurable. The maximum LTI award that can be earned by executive directors for any year is therefore 200% of TFP.

Payment for the achievement of LTIs is made by way of forfeitable shares, which vest on the third anniversary of the award, but only to the extent that:

- (a) the annual performance measures above have been met over a consecutive three-year performance period, and
- (b) the performance measures are then averaged over the three-year period to determine the final measure and award.

Cliff vesting occurs at the end of the three-year period.

The forfeitable shares to be awarded to executives on vesting are acquired in the market, or from shares held in the treasury account, or from the share trust account.

The REMCO has the authority to cash settle LTI awards in exceptional circumstances.

iii. REMCO discretion

When evaluating executives' performance in terms of variable remuneration, REMCO also takes into account any extraordinary internal and external factors that may have contributed to thresholds not being met.

Stefanutti & Bressan Share Option Scheme

The company has ceased using its share option scheme, and no options have been issued since February 2009. Outstanding awards in terms of the scheme lapsed in 2017.

Forfeitable Share Plan (FSP)

The FSP was introduced in 2009 to replace the Stefanutti & Bressan Share Option Scheme and was approved by shareholders at a general meeting held on 25 August 2009.

The committee considers annual allocations of forfeitable shares and in terms of the FSP, any company shares required to meet the FSP, and approved by the board, are purchased in the market, at the ruling price and are therefore non-dilutory to shareholders.

The maximum number of shares issued under the FSP, in any one year, to which an executive, a company or operational director is entitled, will not exceed 1% of the current issued share capital. The aggregate number of shares granted under the FSP at any one time will not exceed 10% of the current issued share capital. Shares issued under the FSP will vest with the relevant executive, company or operational director, on the anniversary of the third year after the award date, provided the director still remains employed within the group.

Executive directors' awards

The LTI award of forfeitable shares is calculated on an annual basis in order to mitigate unanticipated outcomes arising out of cyclical factors and share price volatility.

No LTI awards were earned by the CEO and CFO for FYE 2021, based upon the reported FYE 2021 results (FYE 2020: Nil).

The LTI measure for Total Shareholder Return of the company for FYE 2021 achieved a ranking of 2 out of 6 (FYE 2020: 6 out of 6) within the specified peer group.

Company and operational directors

The committee determines the value of forfeitable shares to be awarded to the directors, taking into account the financial performance of the group. This will be a percentage of audited financial year-end profit after tax.

No awards were made during the year under review (FYE 2020: Nil).

The tables showing the breakdown of the annual remuneration of directors for the years ended 28 February 2021 and 29 February 2020 are set out in note 25 to the consolidated annual financial statements.

3. Key Man Attraction and Retention Scheme

The committee approved the implementation of a Key Man Attraction and Retention Scheme in 2013. The primary purpose of this scheme is to enable the company to compete for new, and retain existing, key employees on an equal footing with its competitors. This remuneration is additional to the standard TFP, short and long-term incentive plans.

This scheme recognises that there are occasions when additional incentives, in the form of forfeitable shares or retention bonuses, may need to be provided, such as:

- › In making an employment offer to an individual when it is necessary to offer compensation for relinquishing an existing long-term or short-term incentive; or
- › To prevent the solicitation of key members of staff by third-party organisations; or
- › The potential recruitment cost of replacement is considered in such cases.

LTI PERFORMANCE MEASURES FOR FYE 2021

Metric	Weighting	Performance criteria – target	Vesting
1. HEPS%	25%	Growth in (HEPS) equals CPI plus 20% of CPI.	100% of TFP vests upon achievement of target, whereas 50% vests upon achievement of threshold (CPI plus 10% of CPI) and 200% vests upon achievement of stretch target (CPI plus 40% of CPI).
2. TSR	25%	A total shareholder return placement in ranking number two or three out of the specified peer group.	100% of TFP vests upon achievement of target, whereas 50% vests upon achievement of threshold, (position 4). 200% of TFP vests upon achievement of stretch target (position 1).
3. ROCI	20%	Return on capital invested equals WACC plus 2%.	100% of TFP vests upon achievement of target, with 50% vesting upon achievement of threshold (WACC plus 0%) and 200% vesting upon achievement of stretch target (WACC plus 4%).
4. FCF	30%	A 20% year-on-year improvement in free cash flow.	100% of TFP vests upon achievement of target. 80% vests upon achievement of threshold set at 10% year-on-year improvement, whilst 200% vests upon a 30% year-on-year improvement, i.e. stretch target.

Retention payments of R2 150 000 and R1 837 000 were allocated to the CEO and CFO respectively in recognition of the key role played by the executive directors in adopting and implementing the group's Restructuring Plan. No payments under the scheme were made in FYE 2020.

In recognition of the critical participation of the executive directors going forward in the successful implementation of the group's Restructuring Plan, 1 670 000 shares were allocated to each of the CEO and CFO under the FSP. Similar allocations will also be made in FYE 2022 and FYE 2023. These shares will vest on the anniversary of the first year after the award date, provided the director still remains employed within the group.

4. Non-executive directors' fees

Recommendations are made to the committee by the executive directors and Human Resources Executive, for onward review by the board and submission to shareholders.

Non-executive directors are compensated by way of attendance fees. The fees are set with reference to the company's industry peer group, companies of a similar size and complexity, and also take into account industry practices and independent fee surveys provided to the committee by external service providers.

The fees of the Chairman, and if applicable, the Lead Independent Director, take their expanded roles into account, and are an all-inclusive fee. No distinction is made between fees payable to independent non-executive directors and other non-executive directors.

Non-executive directors qualify for reimbursement of reasonable expenses incurred in performing their duties for and on behalf of the company. Should the board require a non-executive director to undertake a specific project on behalf of the company, this will be subject to pre-authorisation and executed at a pre-approved total fee.

The non-executive director hourly fee to be approved at the AGM, is paid in respect of attendance at non-scheduled directors' meetings but is capped at the respective fee for one meeting only.

Non-executive directors do not have service contracts. Instead, letters of appointment serve to confirm their terms of engagement, and include matters such as fees, term of office, expected time commitment, share dealing and board performance assessment. The Chairman has a letter of appointment, which is specific to her responsibilities and functions.

All non-executive directors are appointed for a term of three years and are obliged to retire at the end of that period. They may offer themselves for re-election at the next AGM.

Upon recommendation from NOMCO, the board will, on an annual basis, consider the continued services of any non-executive director who has reached or exceeded the maximum period of service of nine years with the company. It will further consider the continued services of any non-executive director who has exceeded the normal retirement age of 70 years.

The fees paid to non-executive directors for the financial year ending 28 February 2021 and 29 February 2020 are reflected in note 25 of the consolidated annual financial statements.

The proposed fee is payable from the AGM for financial year ended 28 February 2021 to the AGM for the financial year ended 28 February 2023 and is set out in the notice of AGM. No increase in fee has been proposed (2020 AGM: no increase).

Non-executive directors are not required to be shareholders and they do not qualify to participate in any incentive scheme that is operated by the group.

During the months of May, June and July 2020, the non-executive directors voluntarily took a one-third reduction in their fees, in order to contribute to cash preservation of the company which was negatively impacted by the effects of the COVID-19 lockdown.

5. Directors' service contracts

Executive directors are employed on standard contracts of employment within the group. These contracts are not fixed-term contracts and do not provide for termination payment. Normal retirement age is set at 65 years.

Executive directors are subject to notice periods of one month. The employment contracts include pay in lieu of notice, and outstanding leave pay provisions which may be invoked at the discretion of the committee. A longer notice period as may be appropriate under certain circumstances, may be agreed by the committee, in which case the notice period would be regularly reviewed and reduced as necessary.

The executive directors' contracts of employment do not include provisions entitling the individual to special termination benefits or balloon payments on termination of employment or on a change of control.

Any STI and/or LTI entitlements awarded to an executive director under the EDIS scheme will be determined based on the scheme rules.

Employees terminating employment due to resignation or dismissal on grounds of misconduct, poor performance or dishonest or fraudulent conduct or due to absconding (fault termination), will forfeit all unvested STI and/or LTI awards. Employees terminating employment due to death, retirement, retrenchment, ill health, disability or injury, will be classified as good leavers and a proportional vesting of the outstanding STI and/or LTI awards will vest on the date of termination of employment.

No provision is made for post vesting forfeiture of remuneration (i.e. claw-back).

6. Voting on remuneration

At the AGM of shareholders scheduled for 6 August 2021, the remuneration policy and the implementation report contained in this report will be put to shareholders for a non-binding vote. Shareholders will also be asked to pass a special resolution, to take effect from 6 August 2021, approving any proposed changes in non-executive directors' fees. Details of these fees are also set out in the Notice of AGM commencing on page 12.

In the event that either the remuneration policy or the implementation report, or both, are voted against by 25% or more of the voting rights entitled to be exercised by shareholders at the AGM, then the committee will ensure that the following measures are taken:

- › An engagement process to ascertain the reasons for the dissenting votes, and
- › Appropriately addressing legitimate and credible objections and concerns raised which may require amending the remuneration policy or clarifying or adjusting remuneration governance and/or processes.

A summarised version of the remuneration policy can be viewed on www.stefanuttistocks.com.
